PRODUCT GUIDANCE SHEET

ARPAX A11

CONCENTRATED LEMON FRESH MULTI PURPOSE CLEANER

A powerful multi-purpose cleaner that quickly penetrates and removes general grime safely from all washable surfaces and has a strong lemon fresh residual perfume. To aid product recognition the ARPAX A11 product label, the solutions, both concentrated and diluted, and the label on the trigger bottle are a yellow shade of green.

Product Name:	ARPAX A11	ARPAX A11 500ML BOTTLES
Description:	Concentrated perfumed multi-surface cleaner	Arpax A11 labelled spray bottles
Pack Size(s):	2x2Lt	1x6
Pallet Size(s):	160	NR
Product Code(s):	1791000	1692000

HOW TO USE

Suitable for a wide variety of cleaning operations in housekeeping and building services applications as a damp wipe surface and floor cleaner. Mildly alkaline it is suitable for use on all hard surfaces including desk-tops, floors, sanitary ware, glass and stainless steel. Arpax A11 is non-biocidal and is therefore suitable for domestic cleaning applications in hospitals.

Clean-As-You-Go Hygiene

Remove gross debris. Spray directly onto the surface or equipment. Depending on the degree of soiling allow sufficient time for the product to penetrate the soil. Agitate heavily soiled areas if necessary, then simply wipe away with a clean cloth or absorbent paper to leave a fresh clean surface.

ARPAX A11 must be diluted before use using an Arpax bottle or bucket fill dispenser. For a bottle cleaning solution dilute with one plunge of dispenser per green labelled Arpax A11 spray bottle and fill with water; for a bucket cleaning solution add three plunges of dispenser to a bucket of water depending on the degree of soiling; or via an automatic chemical/water mixing station.

Bottle Fill Instructions:

1. Unscrew trigger spray from bottle and fill with water to the top of the label.
2. Insert bottle neck on to the dispensing nozzle and push upwards – priming the unit.
3. Position spray bottle on the base of the drip tray to allow vending to commence.
4. PULL lever towards you in an upward direction until it CLICKS. This is now ready to vend.
5. To vend product PUSH lever downwards. The concentrate will be dispensed into the bottle at the correct dilution to water.
6. Remove the bottle from the base and screw trigger spray onto the bottle. Turn bottle upside down to ensure thorough mixing has occurred.
7. WAIT for the green indicator to reappear in the window before inserting the next bottle for vending.

Bucket Fill Instruction:

1. Pull GREEN lever in an upward direction until it CLICKS to prime the unit.
2. Pull lever towards you in an upward direction until it CLICKS. This is now ready to vend.
3. To vend product PUSH lever downwards. The concentrate will be dispensed into the bucket at the correct dilution to water.
4. Wait for the green indicator to reappear in the window before vending again. It is suggested that 3 plunges is sufficient product in a 23lt bucket of hot water.

SAFETY ADVICE – WHEN HANDLING or DISPENSING THE CONCENTRATE

DANGER Flammable liquid and vapour. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. Very toxic to aquatic life. Toxic to aquatic life with long lasting effects. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid release to the environment. Immediately call a POISON CENTER/doctor.

For further detailed information on this product please refer to the Safety Data Sheet.

FOR PROFESSIONAL USE ONLY

SAFETY ADVICE – WHEN USING THE DILUTED SOLUTION

Wearing eye protection is recommended when dispensing concentrate into bottle, but generally not needed for normal use of the cleaning solution. Wear suitable gloves. Avoid contact with eyes and skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical attention. Keep out of reach of children.

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
