

## PRODUCT GUIDANCE SHEET

### MAGIC CONCENTRATED DESCALER

#### READY TO USE HEAVY DUTY SURFACE & TOILET DESCALER

**CONCENTRATED DESCALER:** A powerful hydrochloric acid based descaler, which cleans and de-odourises in one simple operation. Ideal for use on many surfaces including ceramic toilet bowls, urinals, drainage channels and quarry tiled areas around swimming pools for the removal of rust staining, hard water scale, algae and mineral deposits.

Product Name:	MAGIC CONCENTRATED DESCALER
Description:	Ready to use heavy duty surface and toilet descaler
Pack Size(s):	12x1lt
Pallet Size(s):	70
Product Code(s):	3975000

### HOW TO USE

MAGIC CONCENTRATED DESCALER is used directly from the bottle as a ready to go solution and requires no dilution with water.

- **Step 1:** Before use, flush toilet to remove all debris and allow the water to settle. Using a toilet brush, force some of the water in the bowl around the U-bend by digging the brush up and down in the water. This will allow the product contact time with any mineral salts/scale at the water level.
- **Step 2:** Direct the product up under the rim and allow it to run down the inside of the toilet bowl. Leave for 2-3 minutes. Complete the remainder of the surrounding area cleaning tasks. Finally, scrub the toilet bowl with a toilet

brush to remove any stubborn scale or soiling and flush toilet with brush in water to remove any product left in pan or on the brush.

- This product should be applied to toilets at the same time as you pre-spray the other surfaces to be cleaned in the toilet area. Allow suitable contact time to descale heavily soiled toilets.
- Do not squirt the product directly into the toilet bowl water as you will drastically dilute the product thus rendering the performance totally ineffective.
- **Caution:** Do not use bleach shaker pack powder in toilet cleaning as it is a waste of time, effort and money. The bleaching powder simply bleaches out the colour of the stains/lime scale but does not remove the soil. It will come back as soon as you flush the toilet two or three times later.
- **Never use this product in conjunction with a chlorine based (bleach) product. It will produce chlorine gases which can be fatal if inhaled.**

#### QUARRY TILES

- Apply neat by brush or mop. Leave for 2 minutes, agitating any areas of heavy scale, before rinsing thoroughly with water.

#### RUST STAIN REMOVAL

- Apply directly to the rust stains. Leave for 2-3 minutes before rinsing thoroughly with fresh water. Avoid repeated or prolonged use on polished surfaces, grouting, cement and other acid-sensitive surfaces as the powerful acid may affect the finish.

## SAFETY ADVICE

**DANGER** May be corrosive to metals. Causes severe skin burns and eye damage. Wear protective gloves/ protective clothing/ eye protection/ face protection. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

**FOR PROFESSIONAL USE ONLY**

#### COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
