

PRODUCT GUIDANCE SHEET

MAGIC URINE NEUTRALISER

READY TO USE URINE & MAL-ODOUR NEUTRALISER

URINE NEUTRALISER: A fast action surface urine neutraliser containing a long lasting residual fragrance specifically designed to encapsulate and destroy foul smells from the surrounding air/soft furnishings. It contains an encapsulating complex whereby mal-odour molecules are bound together to freshen stale/stagnant enclosed air spaces and surface contamination. Treats urine smells in residential care homes, toilets, nappy bins, washrooms and areas where stale urine/faecal mal-odours may be prevalent.

Product Name:	MAGIC URINE NEUTRALISER
Description:	Ready to use urine odour neutraliser
Pack Size(s):	6x750ml
Pallet Size(s):	100
Product Code(s):	1111000

HOW TO USE

MAGIC URINE NEUTRALISER is used directly from the bottle as a ready to go solution and requires no dilution with water.

- Using the trigger bottle atomiser, spray directly onto the contaminated hard floor/surface or carpet area.
- If on carpet, blot up with a clean sponge, mop or paper towel and allow to air dry.
- Where there is heavy urine contamination, clean first with a carpet shampoo via a hot water extraction machine.

- **Caution:** Pre-test material in an unobtrusive area for colour fastness.

SAFETY ADVICE

Not classified as hazardous, however we advise that normal cleaning safety practices are adopted. Wear protective gloves. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical attention.

For further detailed information on this product please refer to the Safety Data Sheet.

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
