

PRODUCT GUIDANCE SHEET

CARPET FRESH

CONCENTRATED HOT WATER EXTRACTION SHAMPOO

A highly concentrated low foaming perfumed detergent formulated to de-odourise and deep clean the heaviest soil deposits from all types of carpets.

Product Name:	CARPET FRESH
Description:	Concentrated hot water carpet extraction shampoo
Pack Size(s):	2x5Lt
Pallet Size(s):	80
Product Code(s):	1397

HOW TO USE

CARPET FRESH is a concentrated product and MUST be diluted before use via a 30ml pelican dispensing pump fitted to the 5Lt container. For use on all carpets and soft furnishings. Due to formulation there is no need for a de-foaming agent in the pick-up chamber of the extraction machine.

- Prior to first use it is advisable to check the colour fastness of the carpet in an inconspicuous area prior to cleaning the whole carpet.
- Carpet Fresh should be diluted at 80:1 and then added into the wash tank of the extraction machine.
- Apply the solution to the carpet in accordance with the machine instructions.
- Allow the carpet to dry before reopening it up to traffic.

Caution:

Never vacuum the carpet when it is wet as this may cause an electrical fault with the vacuum cleaner or even lead to an electrical shock for the operator.

HEAVY STAINING: PRE-SPOTTING

If an area is heavily stained, a diluted solution (20:1) of Carpet Fresh can be used as a pre-spotter prior to cleaning the whole carpet. Apply to the soiled area using a 600ml spray bottle and allow the solution several minutes contact time before using the extraction machine. Always follow the recommended dilutions. Over concentration may leave the carpet slightly tacky which quickly leads to more soil re-depositing on the carpet fibres.

Further instructions can be found in our Knowledge Area with our 'Step By Step Guide to Floor Maintenance.' This product should only be used by trained or experienced floor cleaning operators.

SAFETY ADVICE

Concentrate and in use solutions are not classified as hazardous, however we advise that normal hygiene practices are adopted. Wear rubber gloves when using solutions and avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice if irritation occurs. **For detailed advice on safe handling and storage of the concentrated product refer to the product Safety Data Sheet.**

Keep out of reach of children. FOR INDUSTRIAL & INSTITUTIONAL USE ONLY.

Gloves

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice. **E-Mail Technical:** technical.solutions@rpadam.co.uk
