

PRODUCT GUIDANCE SHEET

ALCOHOL HAND GEL PUMP PACK

ALCOHOL HAND SANITISER

A fast acting alcohol hand gel when used in conjunction with a mild, odourless hand soap helps keep hands germ-free in commercial catering premises. In a convenient 500ml pump pack it is ideal for retail catering, residential healthcare, washrooms and domestic areas.

Product Name: ALCOHOL HAND GEL PUMP PACK
Description: Ready to use alcohol hand sanitiser
Pack Size(s): 12x500ml
Pallet Size(s): On Request
Product Code(s): 3567

HOW TO USE

Alcohol Gel pump pack is used directly from the convenient retail type pump pack dispenser. Remember - Do not rewash hands immediately after applying alcohol rinse.

Good personal hygiene standards are a critical area of cleaning and disinfection within the kitchen. Most food poisoning outbreaks occur not because of infected produce or poor temperature controls, but due to poor personal hygiene by food handlers.

Important Note:

Always wash hands following handling raw food, refuse or visiting the toilet.

Good Hand Washing Practice:

Washing hands may seem easy but it can cause problems if not conducted properly. Ensure you wet your hands first then apply the soap. Remember chemicals need water to work. Make sure you clean your hands, in between your fingers and your finger nails properly. Finally, make sure you rinse all the soap off your hands once you have finished with clean water. Then dry with a paper towel. Any residues of the soap on your skin may cause an irritation with prolonged contact.

Keep Dispensers Hygienically Clean:

As a frequently touched piece of equipment, care should be taken to ensure that the soap dispensers are kept hygienically clean and that residues of soap are periodically wiped from surrounds of the dispenser and the vending nozzle.

SAFETY ADVICE

Not classified as hazardous but avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice if irritation occurs. **For detailed advice on safe handling and storage of the product refer to the product Safety Data Sheet.**

Keep out of reach of children. FOR INDUSTRIAL & INSTITUTIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice. **E-Mail Technical:** technical.solutions@rpadam.co.uk
